Paddle, snorkel and explore its turquoise lagoon and thriving coral reefs. Stay at Southwest Caye Basecamp, where you will sleep in comfortable, safari-style tent cabanas and dine on fresh fish and local cuisine. Enjoy a flexible daily schedule on the reef, with activity choices geared to all abilities. This getaway combines well with independent travel, and is ideal for those wanting a few days at this remote, national treasure while vacationing in Belize.

Typical Daily Itinerary:

Day 1: You'll travel by water taxi beyond the main Barrier Reef to our private Basecamp on Southwest Caye within Glover's Reef Marine Reserve. We depart from Dangriga at approximately 8 am and typically arrive at Southwest Caye before 10 am. Your guides will introduce you to your new environment and you'll have time to settle into your tent cabana. You'll receive professional instruction, learning the fundamentals of sea kayaking, snorkeling, and tropical water safety. Then you'll paddle to a nearby patch reef and begin exploring some of the 700 snorkel sites that Glover's Atoll has to offer.

Days 2 & 3: Consider starting your day with an early swim or participate in a sunrise yoga session with our resident yoga instructors (yoga is not available on all departures, please check our website or call for a current schedule of trips with yoga instructors). Our itinerary is kept flexible in order to respond to the desires and abilities of both groups and individuals. Activities on days 2 & 3 include: sea kayaking, snorkeling the inner and outer walls of the reef, and learning to sail a kayak. In the mornings and the evenings we host informative sessions on a range of topics - providing an opportunity for guides to share their knowledge of Belize, the marine environments, and local culture. Try your luck in a high stakes game of Hermit Crab racing to finish the day! You always have the choice of just relaxing in a hammock with a good book and a cold beverage.
