Paddle, snorkel, SUP and explore its turquoise lagoon and thriving coral reefs with some of the most experienced guides in the country. You will sleep in comfortable, ocean view safari style tent cabanas and dine on fresh fish and local cuisine. Enjoy a flexible daily schedule on the reef, with activity choices geared to all abilities. This trip is ideal for those wanting to experience this remote, national treasure having activities planned each day, but with the option to stay back and relax in the hammock with a cold drink.

"Basecamping": sleeping in wall tented cabanas. These spacious safari style tents have ample headroom to walk around and are on raised wooden floors, with real wood-framed beds (6 inch foam mattress) configured with either double or single beds. All bed linen is provided.

Typical Daily Itinerary:

Day 1: The trip starts at our Dangriga office on Day 1 at 9:00 am. Here you will check in with our Island Expeditions' team and meet your fellow travelers before heading out to the reef. Due to the early morning check in time, we suggest that you arrive in Dangriga the day prior, or coordinate with our office to make sure you don't miss the boat! We can assist with domestic flights from Belize International Airport or other parts of Belize, as well as accommodation suggestions for the night prior to your trip.

We depart by charter boat to our private Basecamp on Southwest Caye, located on the Glover's Reef Marine Reserve. Upon arrival, you'll receive a camp orientation before settling into your ocean view tent cabana. Our guides will begin by showing you the fundamentals of sea kayaking, snorkeling, and tropical water safety. Once that's done, you and your group will go paddling to a nearby patch reef and start exploring some of the 700 sites Glover's Reef Atoll has to offer.

Day 2-4: Our itinerary is flexible in order to accommodate individual and group preferences, as well as weather conditions. Activities include paddling, snorkeling the inner and outer walls of the reef, Stand Up Paddleboarding (SUP), learning to sail a kayak and fishing. In the mornings we host informative sessions on the history of Belize, its unique marine ecosystem and the local culture. Just a stone's throw from shore are excellent fishing waters, where guests can fly fish for bonefish or tarpon. Guests who prefer a more leisurely pace can always take time to kick back in a hammock and relax with a good book!

"As an experienced outdoorsman from Canada I have a strong bond with nature and wished to learn that same respect for Belize in general and the reefs in particular. I did, thanks to your team..take only photos, leave only footprints. They certainly did show care and concern above and beyond. They all took immense, but humble pride in demonstrating the skills and attitudes necessary to respect nature at its finest."
