The **Rainforest Wildlife Extension** is for those interested in experiencing the magic of one of Belize's most biodiverse ecosystems. This area in the southern Maya Mountains is home to both the 7000-acre **Mayflower Bocawina National Park** and the adjacent world-famous 10000-acre **Cockscomb Basin Jaguar Reserve**. You will also make a visit to the village of Maya Center where you'll meet a local Maya chocolate maker and the Maya Women's cooperative. We visit the Cockscomb Basin Jaguar Preserve's museum, and hike along bush trails looking for birds and wildlife. This adventure is ideal for guests who want a softer pace to explore the broadleaf tropical rainforest and enjoy nature, birdwatching, and wildlife viewing.

Typical Daily Itinerary:

Day 1: Your adventure starts with a pick up in the coastal town of Dangriga, and a short 30 minute drive into the southern Maya Mountains. Situated in the middle of Mayflower Bocawina National Park, Bocawina Rainforest Resort is the perfect location to experience the broadleaf tropical rainforest and the amazing flora and fauna.

You'll start your trip by settling in and learning about the property and the experiences that lie ahead in the surrounding mountains and rainforest. You may want to sign up for the optional afternoon activities or a nocturnal hike.

Accommodation: Bocawina Rainforest Resort

Meals: Dinner

Day 2: Rise with the first light of day emerging through the jungle mist, and experience the sounds of the jungle. Finding a quiet spot to sip a coffee with binoculars close at hand is a sure way to soak in the essence of the rainforest. Hear the chatter of parrots and parakeets flying overhead and listen to the Howler monkeys off in the distance.

After a hearty breakfast, we travel by vehicle to the Cockscomb Basin Jaguar Reserve and the village of Maya Center. We make our way up into the park headquarters and museum dedicated to the late Alan Rabinowitz. It was his vision that helped create this park and the world's first Jaguar Preserve (Note: "Jaguar" by Alan Rabinowitz is an excellent read).

We then embark on a guided trail loop with fantastic bird-watching and wildlife-viewing opportunities. Cockscomb is home to the world's largest concentrations of jaguars and other endangered animals, including ocelot, margay, Baird's tapir, and scarlet macaw.

After the hike, return to the nearby village of Maya Center, the Women's Craft Cooperative, and Che-il Cacao - a traditional cacao chocolate maker. On our return journey to Bocawina, we drive through the tranquil Creole Village of Sittee River, stopping at the historic Serpon Sugar Mill. From there, we stop at Hopkins - a small Garifuna fishing village for a chance to browse the local shops, or enjoy a cool drink next to the ocean. Hopkins is a great place to experience the food, music and traditions of the Garifuna people.

You should sign up for the optional nocturnal hike this evening. A walk in the rainforest is magical at night, as is exploring the moonlit trails and listening to the calls of crickets, frogs, and birds. You are likely to encounter pacas, owls, and kinkajou and maybe even see a wildcat!

"We had a great time. Accommodations were very nice. We walked to the Bocawina Falls and it is very picturesque and beautiful. We also went on a guided rainforest walk and that was excellent with Greg as our guide. He regaled us with stories and told us the medicinal uses of the plants in the forest. It was amazing to wake up to the sound of the howler monkeys roaring in the rainforest.
