Overview:

Spend four nights at our **Glover's Reef Basecamp** on Southwest Caye - located in a protected marine park and UNESCO world heritage site, thirty-six miles off the shore of mainland Belize. Paddle, snorkel and explore its turquoise lagoon and thriving coral reefs. Sleep in comfortable safari-style tent cabanas and dine on fresh fish and local cuisine. Enjoy a flexible daily schedule on the reef, with activity choices for all skill levels. **Glover's Reef:** The least populated of Belize's atolls, is known to have some of the healthiest and biodiverse coral populations in the entire Caribbean with over 800 accessible patch reefs. Glover's offers a truly incredible experience in the marine setting.

Basecamping: Involves sleeping in wall-tented cabanas. These spacious safari-style tents have ample headroom to walk around, are on raised wooden floors, and have comfortable wood-framed beds (6-inch foam mattresses). Tents can be configured with either double or single beds. All bed linen is provided.

Typical Daily Itinerary:

Day 1: Arrive early in Dangriga for a 10:30AM boat departure. We travel 36 miles by boat to our private basecamp on Southwest Caye. Expect the ride to take 1-2 hours. Upon arrival, we give you an island orientation and allow you to settle into your accommodations. After lunch, our guides will show you the fundamentals of sea kayaking, snorkeling, and marine water safety in preparation for either a paddle or snorkel to a nearby patch reef. One of over 700 coral sites Glover's Reef Atoll has to offer.
